Seagull training answers pdf

This app is intended for all users of Seagull Training Administrator to access their training requirements and competence status. You can access important fleet information prior to your next onboard assignment, provided your company is using the feature. It can now sort your training requirements by due date and notify your assessor that you are ready to be assessed. You can also download data for offline usage. Note: Your company must approve use of the app, before you can use your STA credentials to login. Overview:• Completion status for all individual training and competence requirements Training Schedule:• See when a proficiency is due to be completed• Explore the proficiency details and the related training activity• Perform self-assessment• Notify the assessor when you are "Ready to be assessed"• Start e-learning modules that are available in the App when you are online Training Library:• See an overview of available e-learning modules in the App• Show the e-learning product sheet and e-learning details• Start e-learning modules that are available in the App when you are online Requirements:• Training and competence requirements breakdown Notifications:• Read and confirm company notices• Read Seagull Bulletins May 10, 2021 Version 4.1.3 The developer, Seagull Maritime AS, indicated that the app's privacy practices may include handling of data as described below. For more information, see the developer's privacy policy. The developer does not collect any data from this app. Privacy practices may vary, for example, based on the features you use or your age.
